The Board of Directors of Axis Bank Limited approved the financial results for the quarter 30th June 2023 at its meeting held in Mumbai on Wednesday, 26th July 2023.

This quarter, Axis Bank continued to build on its credo of creating customer delight through smart banking solutions. It was the first private sector bank to launch 'One-View' on its Mobile Application, leveraging the Account Aggregator ecosystem. The feature simplifies the process of managing finances for its customers, providing them access to multiple bank accounts on a single platform, eliminating the need for multiple mobile banking applications.

The Bank also partnered with the RBI Innovation Hub. Leveraging India's digital public infrastructure, it has launched digital KCC and MSME loans, which are fully digital and enable customers to apply for and avail loans in under 5 minutes.

Advancing its digital agenda with the merchant community, the Bank introduced Sarathi - a digital onboarding platform enabling instant POS installations. This would significantly streamline and simplify the merchant acquisition process. It also partnered with Visa to launch 'Digital Dukaan', a comprehensive digital offering for merchants that empowers them to accept payments through various digital modes and also manage their day-to-day business digitally. The Bank has also enabled RuPay Credit Card support on UPI for its customers.

Amitabh Chaudhry, MD&CEO, Axis Bank said, "We are striving to create a distinctive new age bank that provides seamless banking solutions to customers, giving wings to their financial dreams and aspirations. We have been constantly raising the bar - strengthening our digital capabilities and building on our robust pipeline of products and services, while keeping customer centricity at the core of every initiative. With India's strong macro environment supporting growth and providing abundant opportunities, we are geared up and confident of delivering sustainable growth across all our priority businesses."

Overall Credit Costs: FY10 to Q1FY24

- Drivers of Credit Costs**
- **Reduced lumpiness of the wholesale business:** Given quality and granularity of the wholesale book, the new credit costs should be lower for this cycle as compared to previous cycle
 - **Provisioning rules tightened and rule based, PCR an outcome:** We now operate at 15% to 20% higher than where we used to previously operate. This needs to be factored in the incremental provisioning in the short term
 - **We feel comfortable growing our retail unsecured book now:** It will give us better risk adjusted NIMs, credit costs standalone will be higher
